Leadership and Governance for Sustainable Tourism

Daily Programme

Akureyri, Iceland, 5-9 October 2016

About

Leadership and Governance for Sustainable Tourism is a high level **European Summer School** to address one of the most important themes in the tourism industry: **how to improve sustainable tourism projects success and monitor the benefits of funded initiatives.**

The Summer School is for tourism leaders and destinations, project management practitioners, funders, policy makers, academics, students and entrepreneurs. The event promotes PM4SD™ as the methodology to apply for planning and implementing transformative tourism projects.

The 2016 edition is organized by the **Foundation for European Sustainable Tourism (FEST)**, the **European Travel Commission (ETC)**, and the **Icelandic Touristic Board** in cooperation with **Visit North Iceland** and aims to be a **European based leading event in preparation of 2017 as the International Year of Sustainable Tourism for Development.**

The Summer School aims to be:

1. A **knowledge hub** to share and transfer successful practices on sustainable tourism
2. A **training event** for donors and implementers to plan and manage tourism funding with sustainability
3. A **funding marketplace** to develop joint funding proposals, developing concept notes and matching skill sets between professional project managers and organizations
4. A **networking event** to facilitate business alliances
5. A **leading event** to promote PM4SD™ as best management practice

The framework of the 2016 edition will be represented by United Nations (UN) decision to adopt 2017 as the International Year of Sustainable Tourism for Development.

Wednesday, October 5th 2016
